REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, although Teraji et al, at Fig. 13, appears to show the claimed percentages of fuel, it is impossible for the examiner to ascertain whether this is true as there is no scaling in the Figure nor is there any discussion in the reference about the relative percentages of injections during low load conditions, as applicant has argued. Regarding, independent claims 10 and 18, the prior art to Teraji does not appear to teach providing a sub-atmospheric pre-combustion pressure condition within the combustion chamber during an intake stroke, while operating the four-stroke engine in a substantially unthrottled condition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick R. Solis whose telephone number is (703) 308-2651. The examiner can normally be reached on Monday-Thursday.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0861.
